

# Nicholas Ledoux

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in Web Design. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications

#### Recent Projects:

**Wow! (Fullstack Web App)** – A web app that randomly generates a wow information card filled with data about an Owen Wilson Wow found in one of his movies.

**NASA APOD (Fullstack Web App)** – NASA Astronomy Picture of the Day Web App that gives you fun facts about NASA's pictures. Allows you to search past dates.

**Cocktail Recipe Search (Fullstack Web App)** – Web App that allows users to search for cocktail recipes from CocktailDB. Includes ingredients, instructions, and relevant media.

**Landscape Photography Wall:** A web app that queries Unsplash and generates a random wall of landscape photography. The website is responsive with CSS, includes JavaScript to fetch images, and credits/links to all photographers.

### T Squared Renovations | Westchester, NY

Present

Designing a website for a popular NY contractor using HTML, CSS, and JavaScript. Helped implement consulting into business plans for future growth.

### Digital Projects Editor for Furniture World | Remote

October 2015 — Present

Handled the digital needs for a retailer-focused magazine. This includes posting news, articles, events and media to the Furniture World website. Also created advertising campaigns for clients including digital banners, email campaigns using HTML and CSS, and publications for furniture industry events.
